hestia

From Greek mythology, meaning Goddess of the Hearth.

THE HEAT & GRILL COLLECTION

The Heat & Grill Collection offers a versatile and easy way to cook food on either charcoal or wood with great results and satisfyingly little smoke. Each product in our collection works as a fantastic barbecue as well as an environmentally-friendly and easily controlled outdoor heater. Their ease of use and reliability will appeal to the weekend barbecue enthusiast as well as the ambitious outdoor chef.

*Hestia stand for high quality,
United Kingdom based design and engineering of simply beautiful products.*

DURABLE FOR YEARS TO COME

A well-maintained Hestia guarantees enduring reliability, offering a secure heat source and adaptable cooking options for an extended period.

Beyond exceptional performance and environmental standards, the Hestia is backed by a 5-year Guarantee.

As with all Hestia products, the collection is meticulously engineered to the highest technical standards using premium-grade materials.

PROTECTING THE ENVIRONMENT

Due to directional air supply, there is significantly less smoke produced than by other solid fuel outdoor heating and cooking products.

By employing a Hestia outdoor heater, you substantially mitigate the pollution and inefficiency issues associated with fire pits and patio heaters, making a substantial contribution to a cleaner, healthier environment.

TRANSFORM THE WAY

EFFICIENT

Heat is transferred from a closed chamber, allowing the burn rate and output to be managed using a straightforward single-control mechanism. Every appliance in the lineup comes equipped with an airflow lever, enabling convenient adjustment of temperature for both cooking and comfort, as well as enhanced fuel efficiency.

AMBIENCE

In contrast to various outdoor heaters and especially fire pits, The Hestia Heat & Grill Collection affords a substantial yet shielded view of the fire. This not only cultivates an incredibly atmospheric ambience but also diminishes the necessity to relocate in response to shifting winds. All emissions are directed up the flue, sparing everyone and everything from being enveloped in smoke clouds – a groundbreaking feature for a wood-fueled outdoor heater. This constitutes a secure method of relishing an outdoor fire, with the advanced technology ensuring that the glass remains clear and the flames remain captivantly visible.

YOU LIVE OUTDOORS

ECOLOGICAL

Utilising identical technology to our indoor wood-burning stoves, the Hestia Heat & Grill Collection ensures a clean burn, minimising both environmental impact and user exposure. Efficient wood-burning emits less environmental damage than gas patio heaters that release substantial amounts of carbon dioxide, exacerbating climate change.

VERSATILE USAGE

Introducing the Hestia Heat & Grill series of barbecue heaters, the pioneers in seamlessly integrating an effective outdoor heater with a culinary appliance. Employing cutting-edge technology typically reserved for indoor wood-burning stoves, this represents a truly unparalleled approach to outdoor cooking and heating, elevating your outdoor lifestyle.

The exceptional temperature management facilitates an array of cooking techniques, from gentle slow-cooking to intense high-heat stir-frying, traditional barbecue grilling, and pizza baking.

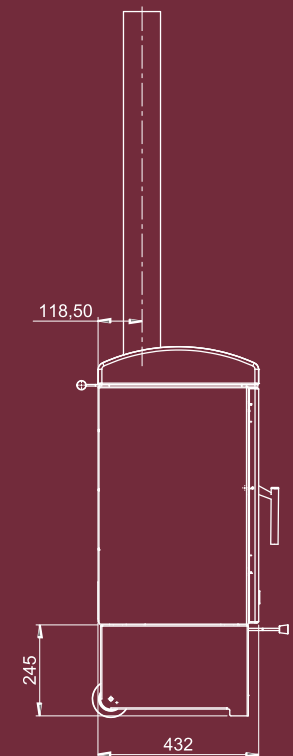

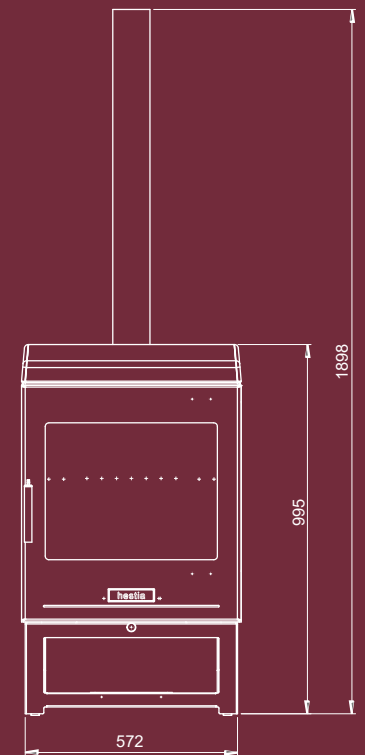

MAXIMIZE YOUR OUTDOOR SPACE YEAR-ROUND!

Introducing the Hestia 350 Heat Only, an ecologically conscious outdoor wood-burning stove. Leveraging the same advanced technology found in our indoor wood-burning stove collection, this outdoor heater radiates generous warmth, emitting minimal smoke, and operates efficiently with minimal fuel consumption.

At the forefront of outdoor heating innovation, the Hestia 350 Heat Only revolutionises outdoor comfort, extending your garden, terrace, or balcony enjoyment across all seasons.

HEAT ONLY

DETAILS

WHEEL BASE
Easy to move around

REGULATOR
Stainless steel regulator for
primary and secondary air
intake

STORAGE
Place for firewood

HANDLE
Stainless steel handle

Crafted from premium materials and backed by a 5-year guarantee, the Hestia 350 ensures durability and reliability. Its innovative design minimizes smoke while maximizing efficiency, providing a sustainable and comfortable outdoor heating experience.

Easy to move around

COMBUSTION CHAMBER
open or closed view of fire

Key Features:

- Dual-function: wood-burning heater & barbecue
- Grill size suitable for 6-8 people
- Ideal for use with a pizza stone
- Integrated baffle directs heat from heating to cooking mode
- Spacious fire chamber
- Removable stainless steel side plates
- Rope-sealed lid for heat retention
- Adjustable flue pipe for smoke control

OUTDOOR MOMENTS, YOUR WAY

Discover the Hestia 300 Heat & Grill, a premium dual-purpose heater-barbecue tailored for those who relish impromptu al-fresco feasting or seek to maximise their outdoor oasis. Crafted to perfection, this appliance caters to your desire for a quick barbecue fix or an increased utilisation of your cherished outdoor space.

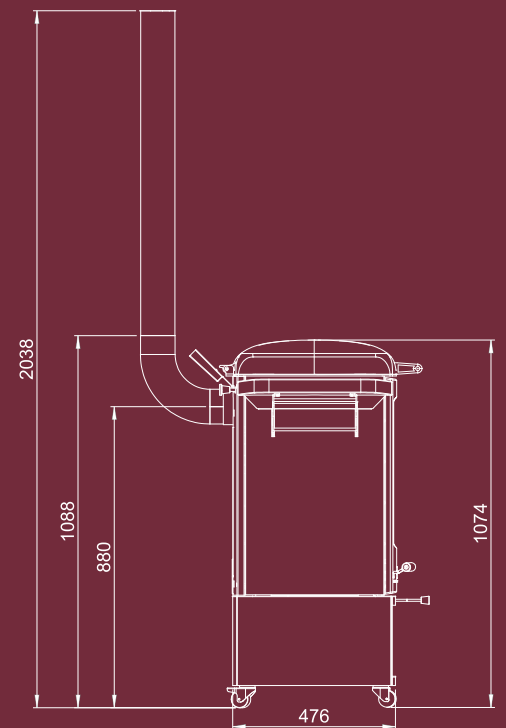

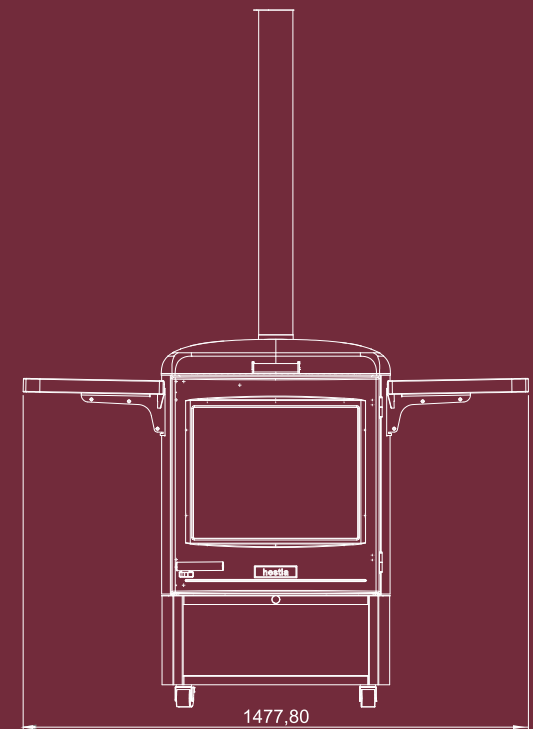

With a grill area ideally sized for preparing delectable sausages and burgers for a gathering of 6-8, utilising high-quality charcoal, or employing a pizza stone to create impeccably crisped pizzas within minutes, the options are enticingly versatile.

ELEVATE YOUR OUTDOOR ENTERTAINING

Combining suave aesthetics with exceptional durability and formidable heat output, the Hestia 600 Heat & Grill caters to the grandeur of outdoor cooking, ideal for the natural host or hostess. With an expansive capacity to serve 10-12 individuals, it's your ticket to slow-cooking an enormous 4-rib roast at a low temperature for irresistible tenderness, thanks to the fully sealed lid. Alternatively, elevate the heat for baking a delightful batch of brownies.

The capacious chamber not only facilitates pre-drinks with its abundant heat but also extends the al fresco soiree deep into the evening. Gazing upon the mesmerising dance of flames, basking in their comforting glow as daylight recedes, the Hestia 600 Heat & Grill operates with impressive efficiency, yielding remarkable impact while utilising minimal fuel.

ENDORSED BY CULINARY PROFESSIONALS

"Hestia's innovative Heater-Barbecues stand out. They offer an unparalleled level of temperature precision, user-friendliness, and an array of cooking modes, catering to a diverse range of recipes. Quick ignition and minimal smoke emission further enhance their appeal. When given the option, I would exclusively opt for a Hestia barbecue for all my cooking needs".

THE BEST OF BOTH WORLDS

Environmentally safe heating combined with a great cooking experience.

CLEAN HEAT

Drawn from our indoor Stove expertise

- Single lever air control
- Fully sealed chamber
- Minimal smoke emissions
- Log Store base

QUALITY COOKING EXPERIENCE

Perfect for cooking meat, veg, pizza and more...

- Large grill size
- Adjustable heat control
- Fully insulated lid reduces heat loss
- Self-cleaning

CHICKEN DRUMSTICKS IN ORANGE JUICE

Ingredients:

- 750 g chicken drumsticks and thighs
- 2 dl orange juice
- 1 dl lemon juice
- A bit of grated lemon zest
- 1/2 teaspoon pepper
- 1/2 teaspoon mustard
- 2 tablespoons olive oil

Preparation:

Mix the orange and lemon juice with mustard, spices, olive oil, and lemon zest. Pat the washed chicken dry with a paper towel and place it in the marinade. Cover the dish with foil and leave it in the refrigerator for at least two hours.

Then, grill the meat gently, occasionally basting it with a rosemary sprig dipped in olive oil. Enjoy!

GRILLED PORK NECK CHOPS

Ingredients:

- 6 pieces of pork neck
- Salt and pepper
- Oil
- A pinch of chili
- 3 cloves of garlic
- Sprigs of rosemary
- Spring onion

Preparation:

Season the meat with salt and pepper. Pour oil into a bowl, add a pinch of chili, minced garlic, and rosemary sprigs, then mix well. Coat each piece of meat with the marinade and let them sit in it for one to two hours to marinate properly. Ideally, do this the night before so the meat can marinate overnight.

Grill the meat over high heat for a few minutes on each side. Place the spring onions on the edge of the grill and cook them briefly. Once done, transfer the meat to a wooden board, let it rest for a few minutes to retain its juices, and then slice it into strips. Serve with grilled spring onions.
